Club News and other Information

CLUB FLYING STATUS

Mike Denlis had a heart attack on Tues August 14th and after a few days at the Hospital and having a stint put in his heart, he was at the flying site on Sunday August 19th, now that is dedication. Hope you are really improving Mike.

The August meeting on the 19th brought out a nice group and lots of flying was done. John Thompson flew his new Twin Stunt Plane. It is powered by 2 OS 15 LA's and flew very well. John wants to trim it and it should do the pattern nicely.

TEAM Country Classic was held on Aug. 25-26 in McMinnville, OR. Sponsored by the Evergreen Aero Modelers (TEAM). This report is by John Thompson who had the pleasure of flying at this great contest. If my math is right 41 event entries were recorded.

John states that the turnout of fliers was excellent and Contest Director Jerry Eichizen kept the activities moving smartly for the

A sense of humor if like a needle and thread: it will patch up so many things!!!!

two days. The flying site is excellent and next to the Museum where the Spruce Goose is located. If you have not been to the museum you are really miss-

ing something. They now have an IMAX Theater open right next to the museum. The site is also used for R/C and that field is located just north of the C/L circle, which is paved and surrounded by grass.

Classic Stunt was flown along with Sportsman Profile Stunt and 4 skill levels of Precision Aerobatics. They had lots of flights over the two days.

John said 2-twin powered stunt models showed, his being one of them.

Remember the next meeting is September 16th.

Club Meeting Time and Place

**Next Meeting-
September
16th at Flying
Site at**

**NOON,
Bring a plane
and fly.**
