

Prop Spinner Chatter

VOLUME 23 ISSUE 11 AMA Charter # 529 Eugene Prop Spinners <http://flyinglines.org> November 2015

Club News and Other Information

Last Club Meeting

October 17th at the Willamette Grill (Airport) restaurant. – attending were Mike Denlis, Jim Corbett, John Thompson, Gene Pape, and Jim Mackin.

Next Club Meeting

Time and place – **10 a.m. Saturday November 21st**, at the Willamette Grill (Airport) restaurant.

Flying dates

The lot is unavailable for usage starting November 16th through January 2nd for the holiday season. Only the airport's car rental and parking tenants will be allowed to use the lot during this time.

Some of us are considering a trip to Salem for flying on Sunday. We can talk about that at the meeting.

Flying site for this winter

President Mike Denlis reports - The meeting with Dave went well, and we should receive the permit paperwork the first week of November. We will need to add them as a Named Insured on our AMA site insurance policy. We will have 2 sets of 2 keys for the gate and an electrical panel at the site. I think the permit fee is \$75.00, but there will be a way to "work" that off if we wish. Also, parking at the Marina lot would require a County Park pass. All the details will be in the permit app, and I'm sure I'm forgetting

some details here. Also, Cinderella Park is still in play as the Master Plan is supposed to be completed in 2016. That is why we didn't hear back from them as expected in early 2014.

I spoke with Dave Stockdale Wednesday afternoon, and I have a meeting with him at 1:30 on Monday to sign the permit and get keys. Permit will be effective on 12/1, and the cost will be \$125.00 for three years. I'll ask if we can sneak in there the weekend before. This will be on the agenda at the meeting, along with Club officer nominations, Funfly, etc. See you Saturday!

Out of town flying sites

Bill Riegel Field, Salem, Ore

Roseburg - David Shrum reports – Roseburg will be SUNNY also. Why not come down and try out our new flying site?

I'll take a day off from tearing down the deck--picking up the 1" round rock and washing it--tearing down the roofing over the deck area and moving it. cutting in the "curtain drain" and putting in rock (again) rebuilding the deck (40')--cutting in ditches for picking up the water off of roofs !!!! anything else ? -not for now !! After the "move/unmove" I was looking for something to do (be careful for what you wish) Oh, forgot, the house is 4" out of level so have to take off skirting and have contractor come in and level --Jan or Feb. So much for my "building" planes !
