

# THE WOLF CALL

February-March 2007

ACADEMY OF MODEL AERONAUTICS  
CHARTER CLUB #3484

Ye Olde Editor: Mike Hazel

## Upcoming Events:

**WOLF Winter Fun Fly! March 10th!**

**Northwest Control Line Calendar updated,  
check it out!**

---

*The "WOLF CALL" is the newsletter for the Western Oregon Control Line Flyers. "WOLF" members fly at the Bill Riegel Model Airpark facility at the Salem Airport.*

*WOLF membership is not required to utilize the facility, but fliers should be A.M.A. members. If you are not a WOLF club member, please consider joining us to help support control line model aviation activity in our area!*

---

Sec Treas:	Mike Hazel	503-859-2905
Safety Off:	John Thompson	541-689-5553
Editor:	Mike Hazel	503-859-2905

---

## *Miscellaneous Ramblings from Ye Olde Editor*

That's right, it's time for our first local fun fly! Refer to the flyer in a previous issue regarding details..... oh, lost it already????? OK, here it is again.... Saturday March 10th, from 10 AM to 3PM. Fly anything, every flight gets a chance in the door prize raffle. We will have at least five or six prizes, so you have a good chance of bringing home some booty. There is no entry fee. Just show up and fly. C'mon now, how simple can it be???? See you there!

A hearty WOLF welcome to new member Leroy Swanson of Albany. Leroy indicates on his membership form that he is most interested in sport flying. Welcome aboard!

DUES ARE DUE!!!!!! It's just about time to send in the AMA club charter packet. If you haven't renewed your WOLF dues yet, please do so ASAP, so we don't drop you off the roster! Those needing to renew are: RON BENNETT, DAVID LAFEVER, RON MCBURNETT, DONALD MCCLAVE, WILL NAEMURA, DAVE ROYER, ALICE COTTON-ROYER, CHUCK SCHUETTE. Thanks for your prompt attention to this.

We had a nice little turnout for the club pizza party on January 30th. There was some discussion of activities for the coming year, and tales told from previous years. Sorry if you missed it.

We recently learned that WOLF member Donald Jones of Salem passed away a few weeks ago. Donald joined the club in 2003, but was physically unable to fly CL anymore. He was an enthusiastic spectator and club supporter, turning out for nearly every local event.

*Editor's Ramblings Continued.....*

If you have been on the FLYING LINES website lately, you will have noticed that there is a vote in progress to determine if the "P.40" stunt event will continue as it currently exists. There is a proposal to pretty much open up the event to any profile stunter. The rules as they now exist limit the engine to a maximum size of a .40, and further make some definitions of the aircraft layout (profile description).

This event has increased in popularity since its inception just a scant few years ago. My opinion is that the rules are just fine the way they are, but others want to be able to run larger engines.

If you are a Stunt flier that participates in this event, or think you may be interested in participating, please take a minute and go to the FLYING LINES website: [flyinglines.org](http://flyinglines.org) and then read up on the discussion and place your vote. The deadline is coming right up, so do this before March 13th!!!!

In case you haven't heard, Delta Airlines has committed to provide service out of the Salem Airport in the near future. This will be the first time in many years that regular scheduled service has been available there.

The service will be limited to just a couple of flights per day, so I don't expect it will have any significant impact on our model field activity. Actually, this could be good news if the terminal building remains open. This means access to the restroom all the time! Right now the terminal building hours on the weekends are limited to Saturday mornings. Guess we will see how it all pans out.

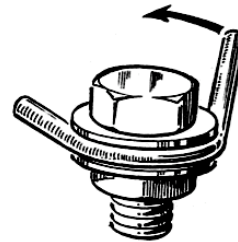

Remember the Salem Fun Fly on Saturday, March 10th! Let's have a good turnout!

Just one more reminder, please take care of club dues ASAP!!!!!! Oh, the names again??????

RON BENNETT, DAVID LAFEVER, RON MCBURNETT, DONALD MCCLAVE, WILL NAEMURA, DAVE ROYER, ALICE COTTON-ROYER, CHUCK SCHUETTE. Thanks for your prompt attention to this.

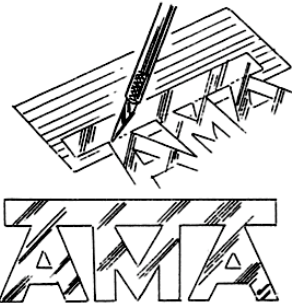

The empty metal cases from regular size and "jumbo" felt markers, when drilled and fitted together, make great mufflers for four-cycle engines. A sheet metal screw and silicon rubber sleeves hold all together nicely. Your columnist stands poised to purloin daughter's empty hair styling mousse container for his muffler! It will make a superb outer container. *Kjell Risholm, Breim, Norway*

A setscrew, nut, and two large washers are all that are required for bending metal tube without putting a kink in it. Run the washer and nut down to the tube without pinching it, place the tool in a vise for convenience, then pull the tubing out and round to the desired curvature.

*Bob Wiatr, Manchester, Connecticut*

Is keeping MonoKote or similar letters and numbers a problem for you? This builder recommends leaving a "bar" of material joining the characters when you cut them out. Place the bar of digits on the wing, then iron up to near the top. Slip an index card under the bar, then with a rule and new blade, neatly slice it off before completing the ironing.

*Raleigh Dean, Marshalltown, Iowa*

# **NORTHWEST CONTROL LINE CALENDAR**
