KITS **J Roberts Stinson SR-6** Provenance: This is the **last ever** model kit to be made by Bob Smurthwaite's company. We were close friends for a couple decades.

COLLECTORS ONLY I asked him to put together this kit as a remembrance. He went out into his closed, empty factory and put this kit together with his own hands.

He died shortly after that. \$500 insurance extra \$24.95

For Builders Top-Flite F8F Bearcat \$110 complete not started insurance extra \$24.95

\$220 at Tower Hobbies!!!

| | | | \$8 | one leg only | | | | \$2.95 |
| Two giant air tanks | | | \$10 | each NIP | | if separately | | \$4.95 |

Roseburg 2015 I sold someone a big kit of the DeHavilland Tigre Moth.
I told him there was an accessory pack for it that I was unable to find. I have found it.
It is full of vacuum molded scale details, like the center section fuel tank, radiator, inst. panel.
Twelve pieces in all, plus extra instrument panel with bezels.
If he will send me his contact info I will mail it to him, on me.
