Miscellaneous Ramblings from Ye Olde Editor

Greetings All! Have had some good contest activity so far this spring starting with the Jim Walker Memorial in April, and the NW Stunt & Combat Championships on Memorial Day weekend and then the Stuntathon up in Puyallup, Washington. Results elsewhere in this issue.

Also in this issue is the updated Northwest Control Line Calendar, check it over as there have been a couple of changes. Added to the calendar is a fun fly/picnic event that will be held at my place on August 2nd. This will be open to all NW control line folks, be sure to put that on your calendar! There will be a flyer with all the details coming out later on that.

Coming up real soon is our own Northwest Speed and Racing Championships (see enclosed flyer for more details). As usual, we will be calling on y'all for some help with this. The Combat guys will be putting on the number one installment of the Chehalis Cup series on the same weekend, Saturday only for the combat.

In the Misc Rumors Department......In the last issue we heard that the Fox company appeared to be scaling back on model engine production operations. Now on the internet chatter we learn that Sig Manufacturing has scaled back their Control Line kit selection. Go to their website and check it out.

And last but not least........... we lose a club member. Bob Cooke recently moved back to California to go back to work. Bob, we will miss you! Come back and visit when you can!

Thought of the month......

Why do "overlook" and "oversee" mean opposite things?
For further information on the events listed below, go to the Flying Lines website, “Where the Action Is” section. (flyinglines.org) There you will find the contact information, sponsor, and event details, etc. Also feel free to contact ye olde editor to provide details.
